EDUCATIONAL COLUMN.

THE APATHY OF THE PEOPLE.

ANTIOCH, July 4th, 1884.

When we take into consideration the importance of education, from a social or national point of view, we are ready to exclaim, is it possible, is it reasonable, that the people feel no interest in the education of their children? Could we unveil the future and show to them what their children's position in the social circle will be in years to come, when from under a father's care and the influence of a mother's love, they would stand horrified and broken hearted at the sight. Yet it may be the sad fate of your child, who takes so little interest in its welfare, for you must remember that ignorance creates vice, and is the father of superstition and error.

What father will admit that he is training his son to fill a convict's cell or a felon's grave? Where is the mother who would for a moment harbor the thought that her daughter is in training for a life of disgrace and shame? The bare idea is horrible, too horrible to think upon, yet remember dear parents, you are unconsciously giving them their first start in that direction.

Now there is a cause for this apathy, not one but many, and while I may not give the mala causa, I wish to point out what I regard as some of the principal causes in this case.

1st. Inferior or low grade of teachers. I mean as to qualifications. These people are in a great measure responsible for. Some favorite in a neighborhood has nothing to do, or perhaps too proud or too lazy to work, or it may be they wish to engage in some other business, or may want to marry and have not the means to supply for the school, their friends urge their claim, the trustees know that the applicant is not qualified but it is one of our neighbors, or they are one of our teachers, ask the examiners not to be too strict, and all they wish is for him or her to teach this one school. The examiners, not caring nor having any interest in the matter, and having too much goodness of heart to refuse, after a mere formal examination grant a certificate, and lo, another teacher made.

The next cause I will notice is the trustees, and here the people are alone to blame, for as they say about the teacher as about the trustees, "any one can act as trustee, and having no interest in the teacher's case it would be in this, but if the people would only try for one year, select the best men they have for trustees, and give them to understand that the teacher by word and deed, treat him as your friend and as one in whose care you have placed the welfare and interest of your children, in other words, do your whole duty, I venture the assertion at the end of the year you would be agreeably surprised.

Another cause is the ignorance of the people in regard to the school laws, and their privileges and duties as teachers, law, and here I fear we as teachers fall in one of our duties, for I believe that the teacher should familiarize himself with the law and then preach it to the people until they become familiar with it and understand their duties. This I think would awaken an interest in school matters that would surprise most of us this would necessitate the visiting of the patrons by the teacher, which is a very important duty. I fear I have trespassed too much upon your space, and will close by hoping that others will give us their views on this important subject.

Blackberries are scarce in this vicinity.

Miss Annie Kerser, who has been visiting her father and mother, returned home Sunday.

We were out in the country last week and saw corn and tobacco along the road that looked fine, but the weeds looked better.

Mr. Richard Head, son of Mr. J. S. Head, Monterey, has been visiting his sister, Mr. W. M. Combs. He returned home Sunday.

Mrs. W. P. Lawrence, who has been visiting her uncle, John Harrod and family, and Mrs. Wm Combs, returned home Sunday.

The funeral of Mr. Lonnie Harrod's wife was preached at the church at this place Sunday morning, at 11 o'clock by Rev. J. A. Peters, of the Baptist denomination. Rev. Dr. Struve preached in the afternoon and night.

We have but one boat now in the trade running from Louisville to Frankfort. Mr. T. Edipse vs. Six Mile Sluggers. The home club come out victorious. Six innings were played without a score, but in the next three innings the visitors got 14, 8 and the home team 16. Come down again, Six Miles, when you want the thing put on you.

The Steamer Fannie Freese passed down on the 4th of July with a lively crowd of excursionists. They camped at Cedar Lock, in the U. S. buildings, spread their table and had a regular jollification, and went rejoicing on their way home.

The finest game of base ball that we have had this season was played here Saturday afternoon. M. T. Edipse vs. Six Mile Sluggers. The home club come out victorious. Six innings were played without a score, but in the next three innings the visitors got 14, 8 and the home team 16. Come down again, Six Miles, when you want the thing put on you.

We have got the finest crop of babies in this country that we ever saw. We saw at church Sunday morning, well we will not over-estimate and say one hundred, but we think we could say fifty more and not miss it much. We can not slug much, and we have not the money to buy an organ, and it is well and good that we should have some kind of music.

One of our neighbors was on a visit to Monterey the other day, and told a gentleman of that place that he would give him a turn of corn if he would send him a sack. The Monterey gent said he would and he did send a sack. I have never seen such a sack as it was. He got two 31 bushel meal bags, cut the end out of one of them and sewed them together. Bro J. H. went to send it to the mill and have it ground for the Monterey gent and he was not satisfied with the 7 bushel sack, but sent a pillow slip along to put in enough corn to pay the toll at the mill. If anyone thinks that is unreasonable we will just refer them to the miller at Cedar Lock, W. F. Lawler. Corn don't cost much. We grow it down here. Send up Mr. S. S., and get another turn next July when that gives out. But bear in mind, when we give corn away again we will state the number of barrels that we have got to donate.

Antioch.

Wheat harvest over; oats next. Wheat reported fine.

Thomas Hunter visited friends at North Fork this county.

Miss Lillie Gains left last Sunday on a visit to relatives in Shelby and Jefferson counties.

Antioch to the front again. Married in Jeffersonville, Ind. July the 3d, Mr. Joseph Tutt and Miss Jennie Quire, Nix.

Sunday-school at Antioch every Sunday at half past nine a. m. Let all the parents come and bring their children. Come everbody and welcome.

Misses Mary Lee and Nora Gore and Master George Gore, spent last Saturday and Sunday with their Uncle Mr. Newton Hall, over the river.

Mr. Chas. Semones and Master Chas S. S. of Tucker's Branch, and Wesley McQuillan and lady were the guests of Mr. and Mrs. John W. Semones Sunday.

Mrs. Lucy Hoard and son, William, and Mr. A. R. Maddox, of Middletown, Jefferson county, were the guests of Mrs. H. S. sister, Mrs. Nona Gains, this week.

Mr. John Flynn and Miss Sallie Hopper visited Mr. James Flynn and

family, of Cedar Run, last Saturday. Miss Sallie ought to have enjoyed the visit, as it is said she walked further to find her horse than she rode after she found it.

We are requested to call the attention of the president of the F. & F. C. Pike to the collision of the pike between Stone and Flat Creeks. It is said that there are trees across it in places and it is in a miserable condition generally, and don't forget the bridges.

The Teachers' Association met last Saturday and had a very interesting meeting. The essay of Miss Verna and the selected piece of Miss Ward were beautiful and appropriate. Mrs. Franklin, on primary education, was excellent, and Col. Allen's address—well, all who know the Colonel know that he gives a good one when he tries. The next meeting, the 3d Saturday in August, promises to be very interesting, and it is to be hoped that every teacher in the county will be present.

In conversation with a citizen of Frankfort the other day, he remarked that there were a large number of young men and boys in that place who had to work daily for their support, and could not attend the day school, thus being cut out of the advantages of an education. He also stated that the city was paying a teacher \$50 dollars a year to teach a training class. Now which is of the most high, orance to the city, the education of these young men and boys or the training of a few young ladies as teachers? We don't object to the training class; it is a noble and praiseworthy object, and is in the right hands, but it does seem to us that if the city would run a night school with at \$500 it would have been a more charitable and worthy act. Come, you are trying to put on city airs, now add this noble feature to your list, and educate your deserving young men. The greatest good to the greatest number applies very well in this case.

Bridgeport.

The farmers have about all finished haying by now.

We report several cases of cholera morbus this week.

Prayer meeting at Franklin Church every Wednesday afternoon at 4 o'clock.

Dr. Bartlett, of Lexington, will preach at Franklin Church to-morrow afternoon at 3 o'clock.

Messrs. W. F. and J. B. Russell and R. D. Armstrong have been in Louisville this week.

Our proposition in last week's ROUNDABOUT, "Resolve, that the present method of examination of teachers is a farce," was not intended to reflect on the efficiency of our worthy County Commissioner but simply to draw out the leading educators on this question. A better way perhaps to put it would be "Resolve that the decision of the Attorney General requiring the re-examination of teachers is unjust."

Following is the proceedings of the Franklin County Teachers Association held in the Public School Building, Frankfort, last Saturday:

Met at 10 o'clock, Vice President T. B. Utterback in the chair. Prayer by Col. R. D. Allen. The first subject in the programme, "The object of the County Teachers Association," was discussed by Col. Allen. His remarks throughout were replete with sound thought, and the only regret is that all the teachers in the county were not present to enjoy this intellectual feast.

Essays by Miss Mary Merna on "School Discipline," Mrs. Agnes Franklin, on "How to teach the primary branches," and Miss Lillie Ward on "Select Readings." These ladies have done their subjects in such a manner as to reflect credit on themselves and honor to the cause.

Mrs. Mary T. Tunney, being present, made a few remarks seconding the course pursued by Mrs. Franklin in teaching the primary branches. On the whole the meeting was a decided success.

Conundrum.

Editor Roundabout: Will some of your readers please answer the following question:

A gentleman in this section has his second wife, he and his son married half-sisters. The father has an infant son and the son an infant daughter. Now what relation are the parties to each other—father and son, their wives and their children? I don't believe Jumbo, Minnie Nemo, You Know, or any of the balance of your correspondents can solve the problem. E. Q. LEE.

PIANOS AND ORGANS! -- EASY TERMS!

In buying a Piano or Organ many persons have the idea that they must pay all cash. There are thousands of families who have an income of fifty to one hundred dollars per month, who can easily spare from five to ten dollars of it and scarcely miss it. To all such we would say, do not wait to lay up enough to pay for an instrument before buying, but see or write us at once for our terms. We will satisfy you that we are giving easier terms than any Music House in the United States.

THE WATER WORKS.

The Contract Closed with Dennis Long & Co.

At the meeting of the Council Saturday morning to close the contract for new water works, the Frankfort Water Company, or in other words, Messrs. Dennis Long & Co., of Louisville, refused to accept the offer of the City Council published in our last issue, to sell them the old water mains for \$20,000 and pay \$6,000 a year rent for 100 fire hydrants, the city advertised for proposals for the erection of water works, the bids to be opened on the 30th of this month.

On Thursday evening Mr. William Reinecke, attorney for Long & Co., returned to this city, got five of the Councilmen together and proposed to compromise the matter by paying the city \$20,000 for the old mains if the city would agree to pay an additional annual rental on the 100 fire hydrants of \$250. As the firm is a first-class one, and their proposition is considered the best that has been made the city, it was agreed to accept the compromise, and a meeting of the Council was called for 9 o'clock yesterday morning, at which time the proposition was formally accepted by a unanimous vote, the contract closed, and the order directing advertisements for bids for the works rescinded.

The Company bind themselves to begin the construction of the works within ninety days and to have them in complete running order by the first of July, 1885. The reservoir is to be erected on one of the hills south of the city and the pumping station is to be at a point above the city on the river, the water to be drawn from the bottom of the stream. The city is given the right to purchase the works at the end of ten years at an appraised valuation. The property of the company is not exempted from taxation, and the amount of taxes collected from them will go a great ways towards paying the rent of fire hydrants. The whole contract is very fair and well guarded.

By this contract the city gets \$20,000 for the mains alone, and does not sell the ground on which stands the old reservoir and dam, for which an offer of \$5,000 has already been made, and a good trade has been made. By standing firmly for the first proposition made by the Council, Councilmen Church, McClure, Magner and Sneed have saved the city just \$5,000 and deserve the thanks of our citizens for it, notwithstanding our neighbor of the Evening Star thought their action unwise and contrary to the best interests of the city.

Mr. P. M. McRoberts, who has held the position of Deputy Collector in this District for the last year, has been removed by the last Collector and Capt. W. L. Neal appointed in his place. The many friends of Mr. McRoberts in this city regret to have him leave the service, and wish him all the success he so richly deserves in the practice of his profession—the law.

The Lexington Transcript, in speaking of the changes in the Collector's office, says that "Mr. John T. Bruce resigned on account of his death and to be appointed Storekeeper." The reason for the resignation certainly was a good one, but as there is no whisky either in bond or out of bond where we hope John has gone, if really dead, the question arises what will he do with a commission as Storekeeper, and how will it be sent to him?

Boulevard's famous Irish drama, Colleen Bawn, will be presented at the Opera House on Wednesday evening next, for the benefit of the Church of the Good Shepherd in this city. The various parts will be taken by first-class actors, who are now enjoying their vacation from their regular engagements, and the entertainment will be well worth witnessing. The prices have been reduced, and the object for which the performance is given should insure a large audience.

Miss Annie Kersey opened her vacation school Monday morning with six scholars.

Mr. John Cain is again operating his grist mill at the foot of Main street, South Side, and will be glad to have his former friends call and see him. Read his advertisement.

The telegraph office windows have again been the centre of attraction this week, as the National Democratic Convention has been in session at Chicago and the proceedings have been bulletined there as fast as anything of interest transpired. The nomination of Gov. Cleveland, of New York, for President was announced at 11 o'clock yesterday afternoon.

Mrs. Agnes Franklin, of this city, has patented an attachment for a sleeve button which is very shapely, but very useful. When in use it attaches the cuff to the coat or dress sleeve and holds it in position, so that the outer garment can be removed without displacing it. All the ladies should have the attachment placed upon their sleeve buttons, for it will prevent ruining the ends of their fingers in planning their cuffs in position, and the gentlemen should also have it, for it will enable them to wash their hands without going to the trouble of unbuttoning their cuffs. It is a good thing and if you try it once you will be certain to like it.

A lady from this city is visiting friends in Chicago, and the first Sunday she spent there many of the stores were thrown open, picnic parties went through the streets with bands playing, and business went on in most of the city just the same as if there was no Sunday. She was greatly shocked and took occasion to speak to her friends about the ungodliness of the Chicagoans, and did not notice that her little daughter, a bright little one of four summers, was listening to the conversation. She was made aware, however, when the little ones' bedtime came, that she had heard every word, for when she told her to come and say her prayers before retiring, she said, "Mamma, I don't want to pray." "Why not?" asked the lady. "Because there's no God here to pray to."

Officers of Election.

Wheat harvest is about over and I hear some of our farmers complaining of their's spoiling on account of the wet weather.

Muslim Rumor reports a wedding in this vicinity. We are real glad to hear it, for the matrimonial market has been exceedingly dull this spring.

There is a family in this neighborhood who are afraid of storms. They will get up at eleven o'clock at night and go to a neighbor's house. The Bible says woe unto the weakminded.

Report of the Chemical Analysis

Of Beer sent by the Capital Brewing Co., Frankfort, on May 24th, and received May 26th, 1884:

COMPOSITION.		Specific gravity = 1.04.	Per cent
Absolute alcohol, by volume	Per cent		5.68
Water by weight	Per cent		94.32
Total Acids, (Acetic, &c.)	Per cent		0.04
Total Solid Matters	Per cent		0.12

The solid matters contain (dried at 212° F.) Gummy and Nitrogenous matters 4.75 Malt sugar 1.03 Ash, or mineral matters36 6.14

Calculated to a gallon there is a little over 7 fluid ounces of Absolute alcohol; 641 grains of malt sugar; about 23 grains of Acetic and other acids; about 184 grains of Ash, and 2,743 grains of gummy and Nitrogenous solid matters dried at 212° F.

The proper test showed the absence of any injurious metallic substance in the beer, as well as of Sulphate of Lime, which would have been present if glucose had been used in its manufacture.

It is evident, therefore, that this is good sound Beer, made of Malt and Hops of good quality.
